

What is PEP Network ?

PEP Network brings Creators, Consumers, Developers and Render Farmers together in a collaborative and remunerative content economy. Empowered with a new blockchain based distributed render protocol, PEP Network is set to revolutionise the Personalized Content Economy.

 GeoFilter Maker

700MN Users

World's 1st AR
 Contact App

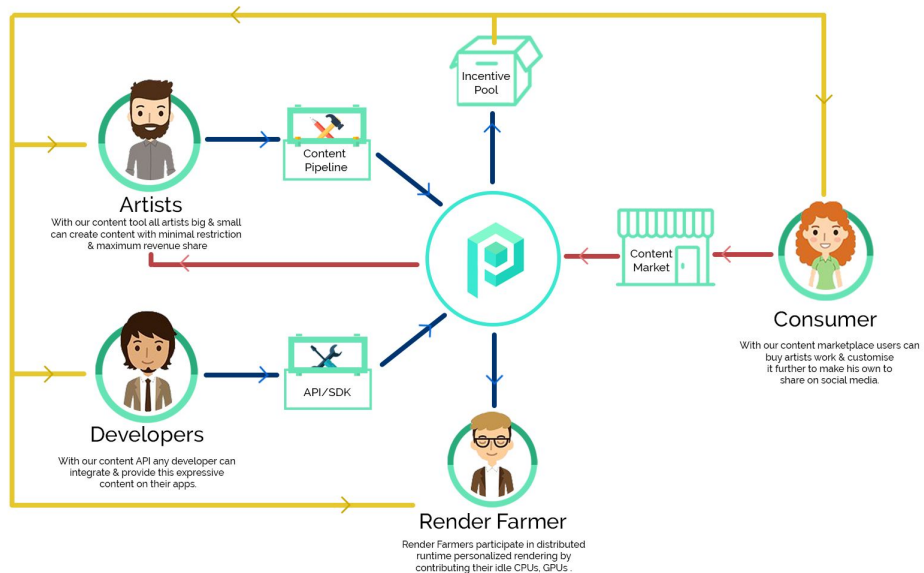

100K Daily Users
 Bot Partner

What problem it solves ?

Animojis, Live Stickers & Camera AR Lens are happening now. Existing content marketplaces lack ability to personalise and are closed and stuck with outdated business models with unfair economics for Creators, Consumers & Developers

How does it work ?

PEP Network introduces new blockchain protocol based on 3D-tech, AI & Distributed Rendering. Demand for PEP Network will grow with engagement leading to sustained monetisation via content selling/buying/exchange, API subscription, In-App purchases, Ads, Premium services, Render Farming etc.

Market

Need for Personalization is increasing with Apple Animoji's & Samsung AR moji's. Personalization in Messaging, AR/VR, Advertising, Bots & Merchandise can bring greater connect with the user.

We will enable our content sale via PEP Token to users on our proprietary & partner apps, there by improving the token demand.

Token Crowd Sale

- 50% Pre & Public Sales
- 15% Platform Rewards & Incentives
- 15% Team
- 6% ICO Expenses
